

Piranha Paper

Anti-evaporation Paper

Product Description

5711

Piranha paper is specifically designed to increase application dwell time for most Piranha and Piranha NexStrip Paint removers. Increased application dwell times can significantly enhance chemical paint removal by preventing the paint remover from evaporating and drying out prematurely. In addition, Piranha Paper helps to ensuring direct contact between the Piranha paint remover and the underlying substrate. Available in either 13" x 300ft or 36" x 100ft rolls Piranha Paper is easy to apply and cost effective.

Application Information

PRODUCT APPLICATION

1. Cover Fiberlock Piranha or Piranha NexStrip paint remover with Piranha Paper. When applying outside note that high winds can pull the paper off the substrate.
2. Working from the center smooth the Piranha Paper by hand, with a paint roller or other suitable means.
3. Label the paper with the product used, application date/time and basic precautionary information.
4. After appropriate application dwell time remove paper with a scraper. Piranha Paper is designed to extend paint remover dwell times up to and beyond 72 hours in most environments.
5. Piranha Paper is specifically designed to extend the application dwell times for the following Piranha Paint Strippers:
 - Piranha 4
 - Piranha 8
 - Piranha NexStrip
 - Piranha NexStrip Pro
 - Piranha NexStrip 8

Properties

Product Specifications

Color:	Brown
