

HVAC Coatings

Solutions for air handling systems

Fiberlock's line of HVAC repair coatings, featuring the IAQ 7000 and 8000 series, are designed to maximize airflow, reduce particulate build-up and restore integrity to a duct system.

*Resists mold on the dry coating surface.

Various types of contamination may be found within HVAC systems. Fiberlock's HVAC Coating solutions are designed to coat internally-lined or fiberglass ductwork to provide a smoother surface and help reduce particulate release.

IAQ 7000 & 8000 Series

The IAQ 7000 and 8000 Series of HVAC resurfacing materials are durable, flexible and moisture resistant penetrating coatings for duct insulation that can enhance airflow while minimizing dust buildup in HVAC systems. These high performance coatings are designed to bridge and reinforce duct liner or duct board insulation materials.

- Binds and reinforces HVAC insulation
- Low VOC[†] and low odor
- Penetrating coating for lined ductwork
- Tough and durable
- Meets NFPA 90A/90B
- Available in white, clear or black

RECON Smoke Odor Sealer

RECON™ Smoke Odor Sealer is a revolutionary solvent free smoke odor sealant and stain blocker that encapsulates smoke odors on multiple surfaces and blocks the toughest stains. RECON Smoke Odor Sealer's OdorLock™ technology prevents smoke odors and stains from migrating through the coating while maintaining it's breathability.

- Permanently encapsulates smoke odors
- Excellent stainblocker
- Water based, non-flammable, low VOC[†]
- Exceptional application characteristics
- Highly permeable, doesn't trap moisture
- Available in white or clear

Fiberlock HVAC Coatings Quick Facts:

- Ideal for new construction as well as restoration of existing systems
- Isolates non-removable particulate from the air stream
- Meets requirement of NFPA standard 90A/90B
- Can be applied with robotic spray systems

All Fiberlock HVAC Coatings satisfy:

- IICRC S520
- NADCA ACR
- ASHRAE 180
- IBC
