

February 15, 2016

Fiberlock Technologies Inc.  
150 Dascomb Road  
Andover, MA 01810

Attention: Jim Anders

Regarding: Fiberlock Usage

We wanted to write a letter stating how and what we have used Fiberlock on. Besides its normal use we found that sealing sub-floors from pet urine works really well with containing the odor. This is all we use know. We have completed over 15 jobs with heavy urine though out the homes.

Should you have any questions or concerns, please feel free to call.
